

Bad Seed Measuring Guide:

Have someone else measure you. Please measure with clothes you would usually wear for jumping. If you wear extra body armor, i.e. spine protector or back guards please indicate that so the rig doesn't fit too tight.

Torso: Measure from the collarbone (where the three rings would sit) straight down to the top of your hipbone.

Hip to Hip: Measure from your hipbone around your back and to the opposite hipbone.

Waist: Measure your waist at the belly button.

Leg 1: Measure around the top of your leg the largest part.

Leg2: Measure from your hipbone around your leg, back to the hipbone. (The path of where the leg strap sits)
